Many forfeitures are about to accrue, from failure to pay taxes; many claims, otherwise good, will be barred by adverse possession of three years—that being the limitation; many titles of lands conveyed in the United States, cannot be admitted to record in Texas, for want of proper authentication. Owing to some one or other of these causes, the best lands are in a condition to be lost.

Having made it my business to become acquainted with all the laws relating to titles, and being determined to attend diligently to all claims confided to me, I require, in all cases, an advance in cash, sufficient to cover expenses of investigation. When that shall be done, I am willing to take a contingent interest in the lands for attention and services.

GREATEST WONDER OF THE AGE.

PATENT GALVANIC RING, AND MAGNETIC FLUID.—These wonderful Rings, and the Galvanic Fluid, have created a great sensation throughout Europe, and are attracting crowds to see them, both in New York and Boston. They cure with astonishing rapidity rheumatism, gout, tic-doloreux, fits, cramp, sick headache, indigestion, deparalysis, stiff joints, general debility, deficiency of nervous energy, and all nervous disorders. They produce all the beneficial results of the ordinary galvanic battery, or electric and magnetic machines, without the injurious shocks which always accompany their application. The secret of preparing the Ring was discovered by Professor Harmance Christie, of London, in October last, and they have been recently introduced into this country by Dr. A. Christie, who warns the American public, from the beginning, to beware of spurious imitations. To guard against fraud, he will appoint but one agency in each of the cities of the United States.

The regular course of instruction in this school is similar to that of the best institutions of the country. Clinical instructions will be given daily at the Charity Hospital in the various branches of medicine. The professors being the attending surgeons and physicians to this extensive institution during the session of the school, have every opportunity of making their lectures practical and thorough.

The Professor of Obstetrics having under his entire control the female wards of the hospital, is enabled to exhibit to the class those diseases pecular to the sex, and also to furnish the senior members as many cases of labor as are necessary to give them a practical acquaintance with this important branch.

The facilities for prosecuting the study of practical anatomy and operative surgery are unrivalled—subjects being supplied in any number, free of charge.

OREGON AND CHINESE WHEAT.—Just received a few sacks of the above new and superior seed grain, from H. R. Smeltzer, esq., of Bloomfield farm. The Oregon is a red kernel wheat, and the Chinese a beautiful plump white kernel. These extraordinary varieties produced Mr. S. last season 45 to 50 bushels of wheat per acre, weighing 63 to 68 lbs. per bushel.

These extraordinary varieties produced Mr. S. last season 45 to 50 bushels of wheat per acre, weighing 63 to 68 ibs. per bushel.

"Oregon,' the other 'China.' It was taken from the Bioomfield estate, belonging to Henry R. Smeltzer, near Middletown, Frederick county, Maryland. The 'Oregon' wheat was found or discovered by a missionary travelling through that territory, who brought it to this country in 1839. Mr. Smeltzer this year raised from four and a quarter acres, 212 bushels and 43 lbs., which is a fraction over 50 bushels to the acre. This wheat is very hardy, of a beautiful red color, with smooth chaff, beads from 5 to 6 inches long, and average from 90 to 130 grains to the head. It is believed it will yield at least 20 per cent. more to the acre than the ordinary wheat, from the fact that it has from 15 to 20 grains more to the head. The history of the China wheat is rather singular. A few heads were found in a box of China-ware imported from the north of China; and the heads being so very large and compact, the discoverer was induced to plant them. Mr. S. informs us that last year he raised 421 bushels per acre with it, and this year 47 bushels per acre. This is a beautiful white wheat, and has heads or ears about as long as the 'Oregon' wheat, and about the same number of grains to the head. The 'China' wheat is of the early kind, and, so far, has not been injured by smut, mildew, or fly."—Sun.

The above valuable seed grain is for sale at the agricultural store of J. F. CALLAN, Washington; also for sale by J. H. KING, Georgetown.

MISS LOUISA A. E. MOORE.

MISS MOORE'S school for young ladies is now open for the reception of pupils. She has determined, on account of the present pressure of monetary affairs, to accommodate her terms to the situation and circumstances of all parents and guardians.

The situation for the establishment of the academy is deemed to be one of the most eligible in the city of Washington for health, excellent water, salubrious air, and a respectable neighborhood. The basement story is spacious, and will be prepared with every accommodation for the comfort and improvement of the pupils.

basement story is spacious, and will be prepared with every accommodation for the comfort and improvement of the pupils.

From the experience which Miss Moore has had for four years past in the education of young ladies, and the superior advantages she has enjoyed in the "Gettysburg Female Academy," she is not without hope that she will be prepared to give satisfaction to those parents who may confide their daughters to her instruction and care.

her instruction and care.

The following is from the Rev. S. S. Schmucker, D. D., President Theol. Seminary, Gettyeburg, Pa.

GETTYSBURG, May 28, 1845.

The undersigned having heard that Miss Moore is about to open a female seminary in Washington city, takes great pleasure in testifying to her entire competency for such an enterprise. Miss Moore was for several years engaged as teacher in the female seminary of this place, during which time the undersigned attended the examinations, and also had several pupils under her charge, and he can confidently attest her excellence as a teacher. By the amiability of her disposition, and the gentleness of her manners, she does not fail to gain the affection and esteem of her pupils, and her success in communicating knowledge in a familiar way uniformly commands their respect.

The moral character of Miss Moore is of the very first order, and the subscriber shall be greatly gratified to hear the success of her present enterprise.

S. S. SCHMUCKER.

Gettysburg penale seminary, Pa.

Miss Louisa A. E. Moore has been an assistant teacher in this institution during the last two years, and I cannot too highly express my sease of the value of her services. She possesses, with varied attainments, an untiring industry, and a peculiar aptitude for communicating instruction. Her manners and amiability of disposition are such as to ensure for her the affection of all her pupils of rightly constituted minds, and I sincerely and heartly recommend her to any institution with which she may seek to connect herself.

HENRY W. THORP, A. M.,

Principal.

In addition to the above, Miss Moore has been kindly permitted to refer to the allowing gentle-
